

ARTICLE I. IN GENERAL

46.01 Legislative findings

The Common Council makes the following legislative findings relating to signs:

- (1) In addition to signage allowed by this chapter, individuals, groups of people, and businesses have numerous means to communicate different types of speech, including print media, broadcast media, direct mailings to households, and dissemination of information on the Internet.
- (2) Sign regulations in this chapter (i) promote the public welfare, health, and safety of people using the public roads and other public travelways; (ii) advance the aesthetic goals of the city, and to ensure the effectiveness and flexibility in the design of, and the creativity of, the use of such devices without creating detriment to the general public; and (iii) reduce the visual clutter caused by advertising signage which is a significant cause of unsafe traffic and visibility conditions.
- (3) Sign regulations in this chapter are not intended to control the content of a message, except as allowed by law, or to unduly restrict the appearance of a sign.
- (4) The limitations placed on signs by this chapter are deemed to be the minimum necessary to accomplish the purposes of this chapter.

46-2. Purpose.

- (3) promote the desired community character described in the City's comprehensive plan;
- (4) protect the safety of the public by requiring proper maintenance of signs and establishing minimum design and construction standards;
- (5) improve pedestrian and traffic safety;
- (6) minimize the possible adverse effect of signs on nearby public and private property;
- (7) restrict off-premises signage to reduce visual clutter thereby helping to prevent unsafe traffic conditions; and
- (8) enable the fair and consistent enforcement of these restrictions.

46-3. Applicability

All signs erected or maintained after July 20, 2021 must comply with this chapter, except for the following which are exempt:

46.24 Sign permit

(a) **Application fees.** From time-to-time, the Common Council may establish an application fee for a sign permit.

(b) **Forms.** Application for all signs, except those signs that do not require a permit, shall be made on forms provided by the zoning administrator.

(c) **Completeness.** Sign applications must contain all pertinent information as required on the form, and any additional information as may be required by the zoning administrator.

(d) **Review.** Sign permit applications shall be filed with the zoning administrator who shall review the application for accuracy and completeness. The zoning administrator is authorized to issue permits when he or she determines that the proposed signage complies with all applicable provisions set forth in this chapter.

(e) **Approval period.** A sign permit shall become null and void if work authorized under the permit has not been completed within one year of the date of issuance.

46.25 Sign Exception

(a) Sign Exceptions are appropriate for proposed signage that is not completely described by the terms of this Code or not fully in compliance with the specific provisions of the Code. Exceptions shall be reviewed and approved by the City Plan Commission. The Plan Commission shall use the following to determine whether to approve the exception, in addition to the requirements outlined in section 11.05 – Division 7 of the Municipal Code.

- (1) If the sign is not in full compliance with the definition or the type of sign is not permitted within a given district, the Plan Commission may make considerations for unique signs that match or have similar architectural styles or materials as the principal building(s).
- (2) Site difficulties. If there are unusual site factors, which preclude an allowed sign from being visible to the street immediately in front of the site, an adjustment may be granted to achieve visibility standards. This adjustment is not intended to be used to make signs visible to other streets, but to address site difficulties of visibility to the street on which the sign has direct frontage. Site difficulties may include the sign face being blocked due to topography of the site, elevation of street, setback of the existing development, or landscaping on the site, or from abutting development or landscaping. This set of adjustment criteria is generally

intended to allow greater flexibility in placement and dimension requirements of the sign. The adjustment may be approved if the following criteria are found to be met:

- a. There is no reasonable place on the site for an allowed sign without an adjustment to achieve visibility standards to the street immediately in front of the site. This may include consideration of an off-premise sign where appropriate.
 - b. If the proposed sign extends into the five-foot setback requirement, the sign will not create a traffic or safety hazard.
 - c. Of potential adjustments to meet the visibility standard, the request is the most consistent with the surrounding development and sign patterns.
 - d. The adjustment is the minimum needed for a sign to meet the visibility standards.
 - e. Additional signage may not constitute an over proliferation of signs on a property or cause needless repetition or redundancy of signage.
 - f. The sign would not be located so as to have a negative impact on adjacent property.
 - g. The size and height adjustment is the minimal to adhere visibility standards.
- (3) If a proposed sign structure, including required landscaped areas would take up required parking spaces and is unable to be suitably placed where setbacks can be met and required parking is not removed, the Plan Commission may reduce or waive the setbacks and landscaping requirement.
- (4) Signs where a Sign Exception is specifically required elsewhere in this chapter such as a mural, may not need to meet all of the above criteria for approval. These are unique signs, and the Plan Commission may grant approval on a case by case basis.
- (5) The Zoning Administrator may require a Sign Exception review when provisions of the sign code are unclear or contradicting.

46.26 Nonconforming Signs

- (a) **Change of copy.** The copy of a nonconforming sign may be changed.
- (b) **Change of sign face.** The face of a nonconforming sign may be changed provided the building inspector determines that the other features of the sign are structurally sound and properly maintained.
- (c) **Change in location.** A nonconforming sign shall not be relocated.
- (d) **Change in area.** The area of a nonconforming sign shall not be enlarged or reconfigured in any manner.
- (e) **Change in height.** A nonconforming sign shall not hereafter be placed higher even though the height is otherwise permitted.
- (f) **Change in lighting.** A nonconforming sign that is not illuminated may not hereafter be illuminated even though such lighting may be otherwise permitted. A nonconforming sign that is illuminated may not hereafter be illuminated in any other manner even though such lighting may be otherwise permitted, except to bring the existing lighting into compliance (e.g., removal of exposed lights bulbs).
- (g) **Addition of an electronic message display.** A nonconforming sign shall not hereafter incorporate an electronic message display even though it may be otherwise permitted.
- (h) **Temporary signs.** A nonconforming sign that is described in this chapter as being temporary shall be made to conform with all applicable standards or be removed within 90 calendar days of the date the sign became nonconforming or within a lesser time period specified by the building inspector if he or she determines that the sign poses an unacceptable risk to public health or safety.
- (i) **Ongoing maintenance and safety.** A nonconforming sign shall comply with all applicable provisions in this chapter related to maintenance and safety.

(j) **Abandonment.** A nonconforming sign that is abandoned for more than 12 months shall thereafter be made to conform with all applicable standards or be removed.

(k) **Reconstruction following damage.** A nonconforming sign that is damaged by violent wind, vandalism, fire, flood, ice, snow, mold, or infestation on or after March 2, 2006, may be restored to its condition (e.g., size, location, and use) prior to the damage, except the sign may be larger when necessary to comply with state or federal requirements.

(l) **Loss of nonconforming status.** If a property owner or the owner of the sign modifies a nonconforming sign in any manner that violates one or more limitations imposed in this chapter, such sign shall thereafter be made to conform with all applicable standards or be removed within 60 calendar days of the date the zoning administrator makes such determination in writing, or within a lesser time period specified by the zoning administrator if he or she determines the sign poses an unacceptable risk to public health or safety.

46.27 Penalties

Any person who fails to comply with the provisions of this chapter is subject to the provisions in s. 1.07 of the Municipal Code.
