

Public Works Capital Improvements

East River Bank Trail - Phase II PROJECT SUMMARY

- **Project Area: 100,000 Sq. Ft.**
- **Construction Year: 2019**
- **Total Cost of Improvements: \$1,538,175**
- **Grant Amount: \$625,529**
- **Classification: City Park**

Project Description

Phase II improvements consist of providing foundational infrastructure improvements to provide for a more useful and enjoyable public space. The foundational infrastructure work primarily includes replacing existing infrastructure that are in need of replacement, such as railing and sidewalk, along with correcting drainage issues. Additional park assets that will be provided to make a more useable and effective park are additional seating opportunities, improved sidewalk, Riverview Balcony and conduit for future path lighting.
